

# MSRIT Department of Computer Science & Engineering

Academic Publication Portfolio & Analytics Report — Dr.Rajarajeswari S

Generated on: 2026-07-21 08:25:42 UTC

## Faculty Profile & Identifiers

|              |                    |             |                                |
|--------------|--------------------|-------------|--------------------------------|
| Author Name: | Dr.Rajarajeswari S | Department: | Computer Science & Engineering |
| Scopus ID:   | 57216700909        | Scholar ID: | S0rWhnMAAAAJ                   |

## Portfolio Metrics Summary

| Total Publications | Total Citations | h-index | i10-index | Verified Scopus | Journal / Conf |
|--------------------|-----------------|---------|-----------|-----------------|----------------|
| 78                 | 235             | 7       | 5         | 37              | 65 J / 13 C    |

## Journal Quartile Distribution

| Q1 Journals | Q2 Journals | Q3 Journals | Q4 Journals |
|-------------|-------------|-------------|-------------|
| 24          | 0           | 0           | 0           |

## Complete Publications Inventory (Top 40 Displayed)

| # | Title                                                                                      | Year | Journal / Conference                                         | Quartile | Cites | Verified |
|---|--------------------------------------------------------------------------------------------|------|--------------------------------------------------------------|----------|-------|----------|
| 1 | A literature review on bidirectional encoder representations from transformers             | 2022 | Lecture Notes in Networks and Systems                        | Q1       | 55    | YES      |
| 2 | Movie recommendation system                                                                | 2019 | Advances in Intelligent Systems and Computing                | Q1       | 33    | YES      |
| 3 | An intelligent system to detect, avoid and maintain potholes: A graph theoretic approach   | 2014 |                                                              | N/A      | 30    | NO       |
| 4 | BERT-based hybrid RNN model for multi-class text classification to study the effect of pre | 2022 | International Journal of Advanced Computer Science and Appli | Q1       | 23    | YES      |

|    |                                                                                            |      |                                                              |     |    |     |
|----|--------------------------------------------------------------------------------------------|------|--------------------------------------------------------------|-----|----|-----|
| 5  | Data confidentiality and privacy in cloud computing                                        | 2016 |                                                              | N/A | 15 | NO  |
| 6  | The Power of Virtual Reality-Next-Gen Radiology Training                                   | 2024 | 2024 15th International Conference on Computing Communicatio | N/A | 7  | YES |
| 7  | An empirical study on feature selection for data classification                            | 2012 |                                                              | N/A | 7  | NO  |
| 8  | Analytical study on load balancing algorithms in cloud computing                           | 2021 | Lecture Notes in Networks and Systems                        | Q1  | 6  | YES |
| 9  | Music Generation Using Deep Learning Techniques                                            | 2020 |                                                              | N/A | 6  | NO  |
| 10 | Survey on software solution for high performance packet processing                         | 2022 | Lecture Notes in Electrical Engineering                      | Q1  | 5  | YES |
| 11 | Real-time translation of indian sign language to assist the hearing and speech impaired    | 2022 |                                                              | N/A | 5  | NO  |
| 12 | A Combination of enhanced WordNet and BERT for semantic textual similarity                 | 2021 | ACM International Conference Proceeding Series               | N/A | 5  | YES |
| 13 | Ensemble Model to Forecast the End of the COVID-19 Pandemic                                | 2022 | Lecture Notes in Electrical Engineering                      | Q1  | 4  | YES |
| 14 | An Optimized Hybrid Neural Network Model for Detecting Depression among Twitter Users      | 2019 | International Journal of Innovative Technology and Exploring | Q1  | 4  | YES |
| 15 | Developing Virtual Reality Applications in Medical Education for Osteotomy Knee Surgery    | 2024 | 2024 15th International Conference on Computing Communicatio | N/A | 3  | YES |
| 16 | Segregation of Waste Material using Rotating Model                                         | 2020 |                                                              | N/A | 3  | NO  |
| 17 | Optimal feature selection of speech using particle swarm optimization integrated with mRMR | 2013 |                                                              | N/A | 3  | NO  |
| 18 | Mitigation of ddos attack in sdn using table miss-entry                                    | 2022 | 4th International Conference on Circuits Control Communicati | N/A | 2  | YES |
| 19 | Annexr: Efficient anytime inference in dnns via adaptive intermediate decision points      | 2022 | Lecture Notes in Networks and Systems                        | Q1  | 2  | YES |
| 20 | Optimized Web-Crawling of Conversational Data from Social Media and Context-Based Filterin | 2020 |                                                              | N/A | 2  | NO  |
| 21 | A survey on existing convolutional neural networks and waste management techniques and an  | 2019 | Advances in Intelligent Systems and Computing                | Q1  | 2  | YES |
| 22 | A semiautomated question paper builder using long short-term memory neural networks        | 2019 | Advances in Intelligent Systems and Computing                | Q1  | 2  | YES |
| 23 | Improving Real-Time Route Suggestions in Automotive Navigation Systems using Vehicle Clust | 2013 |                                                              | N/A | 2  | NO  |
| 24 | Transfer Learning-based Areca Nut (Areca catechu) Disease Detection using CNN and SVM Appr | 2025 | Indian Journal of Agricultural Research                      | Q1  | 1  | YES |
| 25 | Solving Scene Understanding for Autonomous Navigation in Unstructured Environments         | 2025 |                                                              | N/A | 1  | NO  |

|    |                                                                                            |      |                                                              |     |   |     |
|----|--------------------------------------------------------------------------------------------|------|--------------------------------------------------------------|-----|---|-----|
| 26 | Revolutionizing Knee Surgery Education Using Virtual Reality in Medical Training           | 2024 | Proceedings of Conect 2024 10th IEEE International Conferen  | N/A | 1 | YES |
| 27 | Exploring the Impact of AI-Driven Natural Language Processing in Computational Analysis    | 2024 |                                                              | N/A | 1 | NO  |
| 28 | Classification of Human Poses Using Deep Learning Techniques                               | 2023 | 7th IEEE International Conference on Computational Systems a | N/A | 1 | YES |
| 29 | Edge computing in intelligent IoT                                                          | 2023 |                                                              | N/A | 1 | NO  |
| 30 | Multi-scale Fusion-Based Object Detection Network for Advance Driver Assistance Systems    | 2022 | Lecture Notes in Networks and Systems                        | Q1  | 1 | YES |
| 31 | Fog Computing- Characteristics, Challenges, Job Scheduling Survey                          | 2021 |                                                              | N/A | 1 | NO  |
| 32 | Chaotic time series prediction for rock-paper-scissors using adaptive social behaviour opt | 2013 |                                                              | N/A | 1 | NO  |
| 33 | Intelligent Computing Approaches for Nutrition-aware Food Recommendation System: Concepts, | 2026 |                                                              | N/A | 0 | NO  |
| 34 | Ensemble Learning for Face Recognition in Suspect Identification using Cloud Environment   | 2026 | Journal of Automation Mobile Robotics and Intelligent System | Q1  | 0 | YES |
| 35 | Automated Areca Nut Disease Diagnosis: A CNN and SVM Based Model with a Bilingual Farmer S | 2025 | 3rd IEEE International Conference on Data Science and Networ | N/A | 0 | YES |
| 36 | Integrating Quantum Image Processing with Computer Vision: A Streamlit Application for Rea | 2024 |                                                              | N/A | 0 | NO  |
| 37 | Heuristic Multi point path finder                                                          | 2024 |                                                              | N/A | 0 | NO  |
| 38 | Ethereum based safe and decentralized e-tendering system                                   | 2024 |                                                              | N/A | 0 | NO  |
| 39 | Multi-scale Fusion-Based Object                                                            | 2023 |                                                              | N/A | 0 | NO  |
| 40 | Ethereum Blockchain for Private Equity Crowdfunding: Enabling Seamless USDC and Share Toke | 2023 | Lecture Notes in Networks and Systems                        | Q1  | 0 | YES |
